

Peace on Earth.
Awaits that countless army of martyrs whose ranks are constantly recruited from the victims of nervousness and nervous diseases. The price of the boon is a systematic course of Hostetter's Stomach Bitters, the finest and most genial of tonic nervines, purged with reasonable persistence. Easier, pleasanter and safer than to wash the vitualizing department with pseudo-tonics, alcoholic or the reverse, beef extracts, nerve foods, narcotics, sedatives and poisons in disguise. "Tired nature's sweetest restorer, balmy sleep," is the providential recuperant of weak nerves, and the glorious franchise being usually the consequences of sound digestion and increased vigor, the great stomachic which insures both is productive also of repose at the required time. Not unrefreshed awakens the individual who uses it, but vigorous, clear-headed and tranquil. Use the Bitters also in fever and ague, rheumatism, kidney troubles, constipation and biliousness.

A Woman's Discovery.
"Another wonderful discovery has been made, and that too by a lady in this country. Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly and could not sleep. She bought of us a bottle of Dr. King's New Discovery for consumption, and was so much relieved on taking first dose that she slept all night, and with one bottle has been miraculously cured. Her name is Mrs. Luther Lutz." Thus writes W. C. Hamrick & Co., of Shelby, N. C. Get a free trial bottle at Hodgkinson & Co.'s Drug Store.

The Verdict Unanimous.
W. D. Salt, Druggist, Bippus, Ind., testifies: "I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. One man took six bottles and was cured of rheumatism of ten years' standing." Abraham Hare, druggist, Bellville, Ohio, affirms: "The best selling medicine I have ever handled in my 20 years' experience is Electric Bitters." Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters do cure all diseases of the Liver, Kidneys and Blood. Only a half dollar a bottle at Hodgkinson & Co.'s drug store.

Old And Reliable Medicines are the best to depend upon.
Acker's Blood Elixir has been prescribed for years for all impurities of the blood. In every form of Scrofula, Syphilis or Mercurial Diseases it is invaluable. For Rheumatism, has no equal.

W. PINNIGER, Druggist.
California Cat-R-Cure.

Palpitation of the Heart.
Persons who suffer from occasional palpitation of the heart are often unaware that they are the victims of heart disease, and are liable to die without warning. They should banish this alarming symptom and cure the disease by using Dr. Flint's Heart Remedy. At all druggists, or J. F. Mack & Co., 9 and 11 Front St., S. F.

Don't Sleep. Night is the complaint of thousands suffering from Asthma, Consumption, Coughs, etc. Did you ever try Dr. Flint's Heart Remedy? It is the best preparation known for all Lung Troubles, sold on a positive guarantee at 10c, 50c.

W. PINNIGER, Druggist.
Unnecessary Scurvy.
Probably as much misery comes from habitual constipation as from any derangement of the functions of the body, and it is difficult to cure, for the reason none like to take the medicines usually prescribed. HAMBURG PILLS were prepared to obviate this difficulty, and they will be found pleasant to the taste of women and children. 25 cent. At all druggists, J. F. Mack & Co., proprietors, S. F.

Don't Trifle with any Throat or Lung Disease. If you have a Cough or Cold, or the children are threatened with Croup or Whooping Cough, use Acker's English Remedy and prevent further trouble. It is a positive cure, and we guarantee it. Price 10 and 50 cents.

W. PINNIGER, Druggist.
The reason Why Acker's Elixir is warranted, is because it is the best Blood Preparation known. It will positively cure all Blood Diseases, purifies the whole system, and thoroughly builds up the constitution. Remember, we guarantee it.

The Dairy.
Improve your stock now. Weed out the poor cows (robbers) and replace them with good ones (money makers). Sell two poor cows that are running you in debt, and invest the proceeds in one good one that will earn a profit. When breaking heifers to milk take pains with them, so that you don't have to break them over every time you milk. Thorough stripping, is the best motto a milkman can paste in his hat, and it won't injure the cows if followed literally. Build your milking sheds with sloping floors, and never let your cows stand hook deep in filth unless you prefer filthy milk. Bran is one of the cheapest foods used in the rations of cows, but it is most beneficial when fed in connection with ground grain and out feed. A simple remedy for sore teats is said to be: "Wash the parts well with warm water and castile soap, dry, and apply equal parts linseed oil and lime water." Buy extra good cows, but if you think the price too high, invest \$100, either alone or in partnership with your neighbor, in the best bull you can find for the money, and breed him to your best milk and butter producer.—National Stockman.

Try the experiment of washing the cream. It sounds funny, but the doctors say it is a good thing for making the butter come easy and in fine form. It is done by pouring water into the cream and allowing it to stand for several hours. The usual rule is to save the milk at the end of the fifth to the seventh day after calving. No fixed date can be given. There should be no sign of fever or inflammation about the udder, and the peculiar milk of birth known as colostrum should have entirely passed away. Because anything is traditional is no criterion that it is right. If a heifer kicks at her first milking don't swear at her and thump her with the milking stool just because you saw somebody else do it, but try and have more sense than a foolish cow, and perhaps she may learn something yet. Mixing milk is injurious to the yield of butter. This is well-known to milkmen and butter-makers. If milk which has been set for some time and upon which the cream has partly risen, is stirred, the cream never rises again fully, and there is a considerable loss of butter from it. Why this should be so is not easily explained, but it is so well-known that milk dairymen stir the milk occasionally to prevent the cream from rising. During the past week there was offered for sale in Prescott, 75 cows and calves for \$1,500—the purchaser to have his pick from 300 cows and calves, without finding a taker. While it is stated that another well-known stockman south of Prescott offered to sell any number of cattle not to exceed one thousand head for \$10 per head all around without being able to dispose of his stock. It is these kind of things that knock the wind out of all our pet theories in regard to an improvement in the cattle market, but all the same we advise our readers to hold on like "death to a drowning nigger," for the boom is sure to come, and that, too, at no very distant day.—Prescott Hoof and Horn.

Give Them a Chance!
That is to say, your lungs. Also all your breathing machinery. Very wonderful machinery it is. Not only the larger air passages, but the bronchi and all the tubes and cavities leading from them. When these are clogged and choked with matter which ought not to be there your lungs cannot half do their work. And what they do, they cannot do well. Call it cold, cough, croup, pneumonia, catarrh, consumption or any of the family of throat and nose and head and lung obstructions, all are bad. All ought to be got rid of. There is but one sure way to get rid of them. That is to take Shiloh's German Syrup, which any druggist will sell you at 75 cents a bottle. Even if everything else has failed you, you may depend upon it.

RIO BONITO COLONY!

LANDS FAMED FOR RICHNESS Along the Feather River.

GROVES OF MAMMOTH OAKS OF SURPASSING BEAUTY.

Best of Soils for Oranges, Lemons, Figs, Peaches, Cherries, and All Tropical and other Fruits.

RIO BONITO COLONY LANDS ARE LOCATED IN BUTTE COUNTY, California, and along the prettiest part of Feather River. They are about eight miles south of Oroville, three miles from Gridley, and two miles from Biggs, on the Oregon and California Railroad, and seventy-three miles from Sacramento. There are growing on the lands white oak trees, some of which are thirty-five feet in circumference. The soil is rich, sandy loam, and cannot be surpassed in productiveness. Citrus and all kinds of deciduous fruits ripen here to perfection. Rio Bonito Colony Lands are a garden spot, and are certain to be the most popular for homes of any to be found in Central California.

Testimonials on the Land by Leading Butte County Citizens and others.

I have been over your tract of land on the Feather River a hundred times. There is no better land and no better place for a colony in the world. JOHN S. GILSON, Real Estate Agent, Reno, Nev.

As good land as there is in Butte County. JOHN BEALL, Biggs.

This fine piece of land as there is in this county. First-class for cereals and fruits. L. D. FRER, Judge Superior Court, Oroville.

Have lived on this land for nearly twenty years. No more healthy climate in the world. M. BIGGS, JR., Biggs.

It will produce, without irrigation, any of the fruits grown in any part of the State of California. Riggs Argus.

No richer land can be found in all California.—Oroville Register.

As fertile and valuable tract of land as there is in Butte County. Just the kind of land for fruit culture; there is none better. JACOB KRAUSICK, Gridley.

It is all splendid fruit land without irrigation. WM. SHARKEY, Biggs.

I regard your tract as the best body of land in California. Gro. W. CHASE, Battle Mountain, Nev.

One of the finest bodies of land in the world; there is no bottom to the soil, and every inch of it is rich. Oroville Mercury.

A body of land as valuable and well adapted for all purposes of agriculture, especially fruit raising, as any land known to me. G. K. SMITH, Banker, Biggs.

This section of Butte County is one of the best in California for fruit culture. Such land as this, if set out to fruits, would, at the end of three years, be estimated, be worth at least \$500 per acre. At this rate, twenty acres in fruit within three years would be worth \$10,000. The managers will take charge of the setting out of fruit trees for purchasers of land, and at the actual cost of doing the same.

The land is now for sale in tracts to suit at \$100 per acre, on easy terms—one-third cash; balance in one, two and three years at eight per cent. per annum. Buy ticket to Biggs. Fare from San Francisco, \$5.20; from Sacramento, \$2.20. Stages from Oroville to Biggs pass the land daily. Send for circulars. Address,

THOUGH much has been said of what this State was going to do in the building of railways during the year 1887, but little was actually done, aside from a few preliminary surveys. In other States a great many miles were constructed. The South has been making great progress in railway construction. In ten States last year eighty-one lines were in progress or completed, making an aggregate mileage of 1,691. The six Northwestern States constructed 5,149 miles. The greatest number of miles constructed in any one State was in Kansas, where the total is set down at 2,070. Kansas, Nebraska, Texas, Colorado, Dakota and Montana had an aggregate of 6,400 miles of new railroad. Seven Pacific States and Territories are credited with 618 miles of new road. The same authority estimates that the new roads constructed in 1887 averaged in cost \$25,000 per mile and that the total cost was not less than \$325,000,000. The railway mileage of the whole country at the close of 1887 is estimated in round numbers at 157,000 miles. While the six Southwestern States show more mileage than any other, it is a fair inference that the time is not far distant when the seven Pacific States and Territories will take the lead. This is comparatively new ground. There is still a vast outlying territory where no railroad has ever been constructed. More than half the area of California is practically without railways. All the vast region of the northwestern coast, within the limits of California, is to-day without railroads. And that great section is one of the richest in natural resources of any in the State. The valleys are fertile, the grazing lands are good, and the most valuable stand of timber is to be found in this section. It may fairly be presumed that the second era of railway building is about to begin in these Pacific Coast States and Territories. The completion of the California and Oregon railroad was the great event on this side of the country of the year 1887. The extension of the Atchafalpa and Tepeka road in Southern California, and the great work of the Northern Pacific at the Cascade mountains were also very important events. Then there is the probable extension of the Carson and Colorado railroad down to the Colorado river, or to an intersection with the Rio Grande railroad. The rumors of the extension of the latter road through the San Joaquin Valley have not assumed any tangible shape. Only an outline of the more important railway enterprises to be accomplished in the near future in California and the contiguous country, is here given, with the saving clause that some of them may not be accomplished during the present or even the succeeding year, but with the strong probability that before the year closes other roads of hardly less importance will be planned and the work of construction begun. In speaking of projected roads the *Enterprise* says the Salt Lake and Los Angeles road will surely be built at an early day. It will be an independent line all the way between the two points. It will pass along the southern shore of Great Salt Lake, then will run southwest in Utah, very close to the Nevada State line, for a considerable distance. The Nevada State line will then be crossed, and the line will run southwest through Nevada to the south of the Meadow Valley range. On entering California the Calico mining district will be pierced, and the Atlantic & Pacific road will be crossed at Barstow. From that point the line will continue southwest through the Arroyo Seco Canyon, back of Pasadena, and thence through the latter town to Los Angeles. The whole length of the road will be 641 miles. At a point north of the Calico mining district a branch will be built over the Mojave, which will make the distance from Salt Lake City to Mojave 451 miles. The road will start into life a vast region of Southern Nevada that has hitherto lain dead. This is a region of mines of all kinds, valuable minerals and also of agricultural and grazing lands.

NEWS OF THE DAY.

[PRESS DISPATCHES TO THE GAZETTE.]

CLARA BELLE'S TRIAL.

The Case to be Argued Monday—A Surprise.

SAN FRANCISCO, Jan. 13.—The trial of Clara Belle McDonald was resumed this morning before Judge Murphy. Mr. Darwin handed to the Court the answer of the defendant in her divorce suit which he desired to introduce in evidence. After perusing it the Court said it would be placing the prosecution at a great disadvantage to introduce the mere record of another proceeding. It removes from them all chances to examine into the circumstances of the forming of the record.

"We will except," said Mr. Darwin. Then, after a pause, Mr. Darwin continued, with a bow to the Court, "We rest, if your Honor please."

This declaration caused a flutter of surprise, which was only intensified when Mr. Flournoy quietly remarked that he would introduce no further testimony.

"We then," said his Honor, "you are ready to go to the jury."

Mr. Kirk said that he desired to make an argument, but his duties in connection with the work of the Grand Jury rendered it impossible for him to be present throughout the trial, and he desired a continuance until Monday morning in order to familiarize himself with testimony.

"In order that the prosecution may make the most possible out of their case, we will agree to the continuance," said Mr. Darwin. After a brief whispered conference with Mr. McClure, Mr. Rankin and the defendant arose and offered to submit the case to the jury without argument. Colonel Flournoy intimated, however, that he preferred to argue the case.

The Court admonished the jury to be extremely careful during the long recess, not to read or talk about the case, and an adjournment was taken until Monday morning at 10 o'clock.

This early conclusion of the case has taken both sides somewhat aback. There is still considerable to be brought forth in Mr. Darwin's opening statement that has not been detailed from the witness. No attempt has been made to substantiate the charges made by the defendant against her husband and father-in-law, and the alleged bogus marriage of which she was the victim, still remains to be proved. The prosecution offered nothing in rebuttal.

Riots in Peruvian Towns Over the Silver Question.

PANAMA, Jan. 14.—Police escort has been arranged for every train which crosses the isthmus.

The official Gazette of Costa Rica says: The Government has cheerfully granted the request of the Nicaragua Inter-Oceanic Canal Co. to be permitted to explore and effect surveys in territory of the Republic.

A letter dated Callao, December 17, says: "Intense excitement has reigned in Lima and Callao, owing to paper currency continuing to decrease in value. Disorders have resulted in the market places and streets, and a regular panic occurred."

Ecuador is meditating the seizure of the northern part of Peru. Peruvians, who reside there, it is said, will be pleased to change their nationality.

The coffee crop at Antigua will be small this year and will not, it is calculated, exceed 2,500,000 pounds.

A Lima letter says the market places and provision shops are scenes of the most painful events we have ever seen. Women were trying to buy food with ten and twenty sole notes and no one would receive them in payment.

The streets had to be patrolled in Lima and strong squads of soldiers are stationed in the markets to prevent the people from attempting violence against those who refuse to sell for paper money. Among the various incidents of the trouble was the appearance of a number of people in the market place of Siguanayacu, an extensive money dealer. Stones were thrown at the windows of the residence, but patrollers soon appeared and drove the rioters off. On December 10th, there was not a single piece of money changed or a business house in Lima selling silver, script, or paper money. When the crowd formed around the palace, President Caases spoke from one of the balconies and assured all present that the Government was doing everything possible to remove the cause of alarm and to re-establish confidence.

In Asaya, in the northern part of Peru, trouble was feared as business houses all refused to sell for paper currency.

At Iquillo almost all the retail stores are closed, and bakers have stopped baking, because holders of flour will only sell for silver dollars, while bakers only hold notes.

In the money market in Lima there are 1,800 sales. Of this number 1,200 were closed.

On December 15th the steeples of churches were occupied by pickets to receive voters making a bet to arms with bells, and all liquor shops and hotels were closed by the police. Banks were also closed.

The Fruit Men of Biggs.

Biggs, Jan. 13.—Another large and enthusiastic mass meeting was held here last night to agitate planting fruit trees. Speeches were made by A. Abrahams, C. S. Young, W. A. Walker and T. R. Fleming.

The constitution and by-laws of what is known as the "Biggs Fruit Union" was adopted. General C. S. Preble, D. Streeter and D. D. Williams were appointed a committee to make an exhibit of citrus fruits at the meeting of the National Fruit Association at San Jose the last of this month, and a permanent exhibit at Washington, D. C.

CLARA BELLE'S TRIAL.

The Case to be Argued Monday—A Surprise.

SAN FRANCISCO, Jan. 13.—The trial of Clara Belle McDonald was resumed this morning before Judge Murphy. Mr. Darwin handed to the Court the answer of the defendant in her divorce suit which he desired to introduce in evidence. After perusing it the Court said it would be placing the prosecution at a great disadvantage to introduce the mere record of another proceeding. It removes from them all chances to examine into the circumstances of the forming of the record.

"We will except," said Mr. Darwin. Then, after a pause, Mr. Darwin continued, with a bow to the Court, "We rest, if your Honor please."

This declaration caused a flutter of surprise, which was only intensified when Mr. Flournoy quietly remarked that he would introduce no further testimony.

"We then," said his Honor, "you are ready to go to the jury."

Mr. Kirk said that he desired to make an argument, but his duties in connection with the work of the Grand Jury rendered it impossible for him to be present throughout the trial, and he desired a continuance until Monday morning in order to familiarize himself with testimony.

"In order that the prosecution may make the most possible out of their case, we will agree to the continuance," said Mr. Darwin. After a brief whispered conference with Mr. McClure, Mr. Rankin and the defendant arose and offered to submit the case to the jury without argument. Colonel Flournoy intimated, however, that he preferred to argue the case.

The Court admonished the jury to be extremely careful during the long recess, not to read or talk about the case, and an adjournment was taken until Monday morning at 10 o'clock.

This early conclusion of the case has taken both sides somewhat aback. There is still considerable to be brought forth in Mr. Darwin's opening statement that has not been detailed from the witness. —The New York committee to raise a memorial fund for Edward Burgess, designer of the victorious yacht *Puritan*, Mayflower and Volunteer, has collected over \$10,000, which has been handed over to him.

—Senator Cullom has introduced a bill to provide that the legislative power of the Territory of Utah shall be vested in a Governor and Legislative Assembly, the latter to consist of thirteen citizens of the United States, residents of the Territory, to be appointed by the President and confirmed by the Senate.

—A Frenchwoman has just been released from the San Francisco pest-house, where she had been sent five days ago on suspicion of having the small-pox. She protested against going, but to no avail. Finding she was not afflicted with the disease the authorities finally released her. She was forced to herd with diseased people while there, and suffered greatly. The case excites great indignation.

PERSONAL.

John Mackay passed through on his way to the Comstock this morning.

Larry Derby and wife, nee Miss Annie Crutcher, returned from San Francisco this morning.

Dr. S. K. Tuttle, Melter and Refiner of the Carson Mint, has been appointed to the same position in the Philadelphia Mint.

Gen. John L. Beveridge, the representative of the Chicago creditors of the Manhattan mine, at Austin, arrived from the latter place this morning.

Miss Henrietta Nevors, daughter of S. A. Nevors, died in Carson yesterday morning of tonsillitis. She was a very estimable young lady, and a host of friends mourn her sad taking off.

E. W. Crutcher, ex-President of the Nevada Live-stock Association, arrived from Paradise Valley this morning, enroute to the Bay. He reports the winter very severe in Paradise Valley, the thermometer registering there the past week as low as 22 degrees—the lowest since he has been a resident of the valley.

BREVITIES.

Local and General Intelligence.

Trains were from three to six hours late last night.

The snow is over twenty feet deep in places between Carson and Lake Tahoe.

The assessment on Belle Isle of fifteen cents a share is delinquent to-day.

Hay is reported to be worth \$9 a ton in the stack in Honey Lake Valley.

The total valuation of property assessed in Utah for the year 1887 is \$37,893,580.

At Elko during the recent cold wave ice formed in a well fifteen feet below the surface.

There is an ice blockade in the Provo river, Utah, which is six feet above high-water mark.

Great excitement at the depot this morning by the report that a train would arrive on time.

Fresh butter retails for \$1 a roll in Virginia. Washoe farmers supply the greater portion of it.

S. Noel, a Mason Valley farmer, claims to have discovered traces of a prehistoric race of Indians on his ranch.

The mercury in the thermometers in town is alleged to have touched the 15-degree-below-zero notch this morning.

Matt Healy, of Susanville, is on the road with 300 head of beef cattle for this market. He is expected here to-morrow.

Stockmen complain of the scarcity of cattle cars on the C. P., the absence of which is causing them loss of time and money.

Ephraim Barney, a former resident of Steamboat Springs, died of cancer of the stomach at St. Helena, Cal., on the 11th inst.

The officers of Gen. O. M. Mitchell Post and Corps will be installed Monday evening, January 16, at 7:30 o'clock, at Masonic Hall.

The small-pox epidemic at Sierra City is on the decrease. There are now six cases in the pest-house under treatment. The rest are convalescent.

Ten carloads of beaves, consigned to Foley, Heilbron & Co., San Francisco, arrived from Winnemucca to-day, and will be forwarded below to-morrow.

The ice on Donner Lake is seven inches thick and affords excellent skating. The lake viewed from the railroad above resembles a big mirror framed in white satin.

A great many cattle are reported to have been killed on the Central Pacific during the past week. Between Elko and Carlin the track is said to be strewn for miles with the remains of steers.

James Kane, a Lassen county stockman, is in town, awaiting the arrival of a band of cattle on the way here for market. He reports about six inches of snow in his country, and the weather very cold.

A dispatch to the Sacramento Bee, from Bridgeport, Cal., says: Andrew McGinty, who killed Barton W. Coleville on May 30, 1885, pleaded guilty to manslaughter on the 12th inst., and was sentenced to seven and one-half years imprisonment.

Owing to the irregularity of the arrival of trains, the employees of Wells, Fargo & Co., are having a monkey and parrot time of it. This morning they had to turn out at 3 o'clock, and at daybreak lovers' walk was strewn with frozen religious utterances.

The humorist of the Enterprise relieves himself of the following: "The story current that Steamboat Springs were frozen up last Sunday night is now officially denied; also that a miner had his ears frozen while at work on the 1500 level of the Con. Cal. & Va."

J. Griffin, Roadmaster of the Central Pacific, is engaged in arranging the pumping apparatus of the water tank, below the Depot Hotel, in order to secure a supply of water from the well connected therewith, the pipes of the water company, from which the supply is had, having frozen so that no water can be had from that source.

Lovecock to the Front. Lovecock is rapidly forging ahead as a feeding center, and farmers there are confident that it will surpass Reno as such within the next two years. Several thousand head of beef cattle are being fed there now, and as many more have already been shipped to market this season. The alfalfa is of the best, and feeders there furnish well water for the cattle, which being warm and brackish, tends to put on fat, it is claimed, in much less time than if ice-cold water is given. Reno will have to bestir itself if it desires to remain the beef center of sage-land.

The Methodist Church. The Methodist church has been vastly improved, and is now considered the best appointed and most comfortable house of worship in the State. Stained-glass windows have been put in, a new carpet laid, the pulpit removed back four feet, and cushions placed on the seats. To-morrow the church will be reopened, and the Rev. Van Deventer, one of the most eloquent preachers in the State, will officiate at both services. Everybody is invited.

Church Notices. CONGREGATIONAL CHURCH—Divine service held every Sabbath day at 11 A. M. and 7:30 P. M. Rev. T. Magill, pastor. Sunday School at 12 M. Prayer meeting every Wednesday evening at 7:30 P. M. The public are cordially invited.

BAPTIST CHURCH—Services at the Baptist Church to-morrow morning and evening. Rev. C. L. Fisher, pastor. Sabbath School at 12:15 P. M. Subject for 7 P. M.: "The difficulties of a death bed conversion." A cordial invitation extended.

FROM WASHINGTON.

WHAT OUR REPRESENTATIVES ARE DOING.

Senator Stewart's Silver Bill Meeting With Favor—The New Silver Vault—Uncle Jimmy on Deck.

Regular Correspondence [GASSETT] WASHINGTON, D. C., January 9, 1888.

EDITOR GAZETTE—I visited the Treasury Department again the other day and was considerably interested in the mammoth, new silver vault just completed. Its dimensions, outside measurement, are 60, 10 feet by 97.8. The coin is to be stored in 16 cells or rooms, arranged in two rows of eight each, separated by a passage-way about four feet wide, with a door from each room opening into it. Each room is 20 feet by 10, and about 15 feet high. The silver dollars will be stored in boxes and in such a way that in the end of the room further from the door they will be piled high, and grading down to the entrance. It is expected that each room will contain eight million if piled close to the top of the arches. This will make the total accommodations of the vaults equal to \$128,000,000.

I took advantage of the opportunity to ask an old-time Treasury official, to whom I was introduced after coming out of the vault, if the general people of the East were really opposed to handling coin instead of paper money. His answer was, in effect: "Yes; they prefer to handle paper money, but I can discern the inclination growing stronger among them to have the notes backed by something more tangible than the mere promise of the Government."

"Do I understand you to infer that the people, generally, are becoming entirely reconciled to the silver coinage law now in force?"

"Oh, no; they object to the coinage of the silver dollar, but not to the purchasing and depositing of bullion."

"Then the bill introduced recently by Senator Stewart ought to satisfy them?" I ventured to ask.

"Yes; Senator Stewart's bill has many excellent features and is, in my opinion, destined to become more popular as it is read and studied by the thinking masses."

I learn this afternoon that Congressman Woodburn introduced a silver bill in the House this morning which he intends to work through Congress, if possible, this session, in case Senator Stewart's bill meets with formidable opposition. Mr. Woodburn's bill provides that the silver per share not less than \$4,000,000 a month instead of \$2,000,000. The coinage of \$4,000,000 a month would consume the entire product of the white metal of the United States.

I am also reliably informed that Congressman Woodburn will shortly introduce a bill proposing to cede all the public lands of the United States within the limits of Nevada to the State. The object is to let the State have jurisdiction over all the public lands within her boundaries, so that the Legislature may be able to make improvements of a public character, such as the sinking of artesian wells, etc. Mr. Woodburn has discussed the matter with several prominent men interested in Nevada's welfare, and all are pleased with the idea, but a few of them view it, for several reasons, as premature. However, a fight will be made in behalf of the measure.

Ex-Senator Fair is in the city, mingling with old friends and acquaintances. He is said to suffer greatly from poor health. Madame Rumor has it that he views his former seat in the Senate with an evident desire to again occupy it, and some go so far as to say that, having healed up all the old sores with Mackay and other Comstock magnates, he counts on being Senator Jones' successor.

But let Nevadans bear in mind that the class of men they need here to look after the State's interests are workers—laid fatigable workers, who have the ability to accomplish desired ends.

A ROBBERS' ROOST.

A Gang of Thieves Arrested by the Virginia Police.

A robbers' roost was raided at Virginia City Thursday night, and five young men and three girls, from fifteen to eighteen years of age, were captured. The names of the men are William Germal, Fred Paul, two brothers named Hall (aliases), and John Martin. The other girl is named Floyd, whose parents reside on the Geiger grade between Virginia and Steamboat. The haul resulted from the theft of two sacks of flour from the French bakery. The property was recovered. It is expected that the arrest of the gang will lead to the recovery of the stolen property and relieve the town for a while from the numerous petty thefts it has been subjected to.

The Manhattan Mine Property. John L. Beveridge, of Chicago, Illinois, representing the Chicago creditors of the Manhattan Company, has, by redemption of the real property and purchase of the personal property, succeeded to the rights which the Lander Company acquired at execution sale. The papers investing him with their rights were finally delivered on the 11th inst. and the purchase money was paid to the Treasurer of the Lander Company.

The amount paid for the redemption of the real property was \$37,940 and for the personal property, including the expenses attending its preservation, etc., since the sale, \$14,885, making the total sum paid, \$52,825. In addition to this amount Gov. Beveridge has arranged for the payment of some of the judgments against the Manhattan Company and hopes at an early day to arrange for all.
